

Dear SAAFoST Members,

A Water Talk Shop and visit to Radical Waters in Kyalami will be taking place on 30 September from 14:00 to 19:00.

It will cover topics such as: electrochemically activated water, membrane technology, the treatment of brines, water hygiene for the future and the international award winning KNeW process developed by SAAFoST Member, John Bewsey.

This Water Talk Shop will be followed by a water tasting session by SANBWA and snacks.

Full programme to follow soon!
