## Short Course - Hygienic design of food processing plants

18-19 February 2014 in Cape Town

(also 7- 8 May 2014 in Johannesburg

5 - 6 August 2014 in Durban)

Hygienic Design is important. More than 35% of the operative clauses in the new SANS 10049 are concerned with the hygienic design of buildings, equipment, services and facilities.

This course clarifies the issues surrounding hygienic design of buildings and equipment (with particular reference to SANS 14159).
