

Advance your career in the food industry!

As the essential career partner, SAAFoST advances food science and related technologies, imparts knowledge and facilitates networking through meetings, workshops, congresses, exhibitions, disseminating information, bestowing prizes, awards and bursaries. It also promotes professional standards of competence and integrity.

"SAAFoST has been part of my life since my student days and made it possible to gain exposure in the food industry. Once I started

"Being a food safety auditor, one has to constantly keep abreast of the latest topics affecting the food industry. During my

"SAAFoST is an excellent networking platform, where industry professionals and scientists share a common exchange

my professional career, SAAFoST played a major role in facilitating meeting people in industry and widening my knowledge of food science and technology. I keep renewing my membership as SAAFoST is a community of food professionals with a passion for the science of food and its growth."
