27. SAAFoST SHIELDS

During the mid-1990s shields were made available for members to purchase. These bore either the "Professional Member" or "Institution Member" inscription and were only available to members who had been in good standing for at least 3 years. These

shields were often hung on office or board-room walls and this was a useful way of recognising the holder's membership and involvement with SAAFoST.

Shields were also loaned to office bearers whilst they held office and were displayed with pride by The President, Vice Presidents, Council

Members and Branch Committee Members. Complimentary shields bearing the inscription "Honorary Life Member" were given to individuals who had been elected to this grade of membership.

The shields were discontinued when the SAAFoST logo was changed in 2007
